

VIT-AP University - Academic Regulations & Policies

1. Attendance Policy & Examination Eligibility

At VIT-AP University, class attendance is critical for learning and academic integrity. The regulations regarding attendance requirements to write examinations are strictly enforced:

- **Minimum Attendance Requirement:** A minimum of **75% attendance** in each course is mandatory for a student to be eligible to appear for the examinations (including continuous assessment tests like CAT-I, CAT-II, and the Final Assessment Test or FAT).
- **Debarment / Withheld Grade:** Students who fail to secure the minimum 75% attendance in a course will be debarred from writing the FAT in that specific course and will receive a 'W' (Withheld) grade.
- **The 9-Pointer Advantage (Exemption):** Students who achieve a Cumulative Grade Point Average (CGPA) of **9.0 or higher** with no active backlogs are exempt from the 75% minimum attendance requirement. This exemption is dynamic and applies as long as the student maintains a 9.0+ CGPA in their portal.
- **Calculation Period:** Attendance is calculated from the date of commencement of class registration up to one day prior to the last instructional day before the examinations.

2. GPA and CGPA Grading System & Calculations

VIT-AP follows a 10-point credit-based grading system. Performance is assessed using letter grades which are mapped to specific grade points:

Letter Grade	Grade Points	Performance Description
S	10	Outstanding
A	9	Excellent
B	8	Very Good
C	7	Good
D	6	Above Average
E	5	Average
F	0	Fail

Semester Grade Point Average (GPA) Calculation:

GPA is computed at the end of each semester. It is the ratio of the sum of the product of the number of credits of the courses registered and the grade points corresponding to the grades scored, to the sum of the number of credits of all the courses registered in the semester.

Formula: **GPA = Sum(Grade Points × Course Credits) / Total Semester Credits**

Cumulative Grade Point Average (CGPA) Calculation:

CGPA is the cumulative performance of the student across all semesters. It is calculated by taking the sum of the products of the GPA of each semester and the total credits of that semester, divided by the total credits earned across all semesters.

Formula: **CGPA = Sum(Semester GPA × Semester Credits) / Total Credits Earned**
